Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 4 – 5 and 7 – 10 are rejected under 35 U.S.C. 102(b) as being anticipated by Van Gompel et al. (EP 0 547 497 A2).

With respect to claim 1, Van Gompel et al. (hereinafter “Van Gompel”) discloses a disposable garment having a front region, a back region, a crotch region between the front region and the back region (figure 5), the disposable garment comprising a chassis having a topsheet (34), a backsheet joined with the topsheet (20), and an absorbent core (32) interposed between the topsheet and the backsheet (figure 5), the chassis having a central panel having a waist edge and side edges, an ear panel having a waist edge, and a waistband panel in the front region and the back region, wherein the ear panel extends laterally outwardly from each side edge of the central panel, and the waistband panel extends longitudinally outwardly from the waist edge of the central panel and the waist edge of the ear panel (see below)

Art Unit: 3761

a waist elastomeric material joined to and extending continuously along the waistband panels in the front region and the back region so as to form a continuous extensible waistband in the front region and the back region (col. 5, line 57 to col. 6, line 2), a side elastomeric material joined to the ear panel so as to form extensible ears (44), wherein the side elastomeric material and the waist elastomeric material are separate elements and are disposed so as not to overlap each other (figure 5) and seams joining each ear panel to a corresponding portion in the opposite front or back region so as to form two leg openings and a waist opening such that the extensible waistbands form a continuous extensible waist feature as set forth in figures 1 – 3.

As to claim 4, Van Gompel discloses a disposable garment wherein the extensible ear is formed from a “zero strain” stretch laminate through the incorporation of US 4,940,464 in col. 9, lines 33 – 39. US 4,940,464 (Van Gompel et al.) teaches the use of “zero strain” stretch laminates in col. 4, line 31 to col. 5, line 32.

With respect to claim 5, Van Gompel discloses a disposable garment wherein the waist elastomeric materials comprise two separate elements, one of which is joined to the waistband panel in the front region, the other of which is joined to the waistband panel in the back region (figure 6), wherein the two elements are connected to each other at the seams as set forth in figures 1 – 3.

As to claim 7, Van Gompel discloses a backsheet comprising an inner barrier film and a nonwoven outer cover, wherein the nonwoven outer cover is superposed outside the inner barrier film as set forth in col. 4, lines 38 – 57.

Art Unit: 3761

With reference to claim 8, Van Gompel discloses a garment wherein the extensible waistband comprises an extended portion of the outer cover and the waist elastomeric material as set forth in col. 8, lines 36 – 41.

With respect to claim 9, Van Gompel discloses that the extensible ear comprises an extended portion of the outer cover and the side elastomeric material as set forth in col. 8, lines 42 – 54.

As to claim 10, Van Gompel discloses that the waist elastomeric material is superposed inside an innermost surface of the garment as set forth in col. 8, lines 36 – 41.

Response to Arguments

Applicant's arguments filed January 6, 2005 have been fully considered but they are not persuasive.

With respect to the second paragraph under the Rejection Under 35 USC 102 heading on page 4 of the applicant's remarks filed January 6, 2005, the examiner presumes that the applicant intends to state that the Office Action makes no particular showing of how the claim terms correspond to the reference and does not teach the waist elastomeric material and the side elastomeric material as separate elements that do not overlap each other.

The examiner disagrees. Annotated figure 5 points and the rejection of claim 1 point out specifically which elements correspond to the claimed terms and the annotated figure 5 shows the waist elastomeric material (14) and the side elastomeric material (44) as separate elements that do not overlap each other.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**.

See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michele Kidwell whose telephone number is 571-272-4935. The examiner can normally be reached on Monday - Friday, 5:30am - 2:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Larry Schwartz can be reached on 571-272-4390. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
